

SATYAM SINGH

FULL-STACK ENGINEER

+91 76518 04405 | Uttar Pradesh, India | satyam4698@gmail.com
satyam-singh.com | github.com/IronicRayquaza | linkedin.com/in/satyam-singh4698

SUMMARY

Full-stack engineer building React and TypeScript front ends on Node, Python, and smart contract backends. Top-10 contributor to a 6.2k-star open source AI deployment platform, shipped production sites for 2 commercial clients at 100/100 Lighthouse, and placed 1st at Hack with Tricity. Computer Science graduate, 2026.

SKILLS

Languages	TypeScript, JavaScript, Python, Solidity, Lua, Move, Java, C/C++, Rust, SQL
Frontend	React, Next.js, Vite, Tailwind CSS, HTML/CSS, Figma
Backend	Node.js, Express, Flask, MongoDB, MySQL, PostgreSQL, Firebase, REST, GraphQL, OAuth 2.0
Blockchain	Ethereum/EVM, Solana, Arweave & AO, Aptos, ICP, ethers.js, web3.js, IPFS/Pinata
Tools	Git, Docker, Vercel, Postman, Linux, Bash, PowerShell

EXPERIENCE

Open Source Contributor — ODS (Osmantic Deployment System)

Jul 2026 – Present

Local AI deployment platform — **6.2k stars, 897 forks**; top-10 contributor of 57

Remote

- Patched a **DNS-rebinding SSRF (TOCTOU) vulnerability** in the platform's egress layer.
- Brought the Windows PowerShell CLI to parity with Linux: model subcommands, service enable/disable, and Task Scheduler fixes.
- Hardened the integration test suite: centralized auth resolver, dynamic port resolution, and Git Bash support on Windows.

Freelance Web Developer

Jul 2025 – Jan 2026

Independent — two commercial clients, sole developer

Remote

- **Park East by Navdesh Group** (Jan 2026): sales site for a Mohali residential development — specifications, gallery, amenities, and location pages, with an enquiry form that has generated **10+ leads** for the sales team — arcadia-vert.vercel.app.
- **Lauffer Vision India** (Jul 2025): corporate site for a Bhopal manufacturer of AI sorting machines, covering solutions across agriculture, recycling, and mining — lauffervisionindia.in.
- Owned both projects end to end: requirements, design, build, deployment, and client handover.
- **Scored 100/100 on Lighthouse** for the Lauffer Vision India build — performance, accessibility, best practices, and SEO.

Blockchain Developer Intern

Jun 2024 – Aug 2024

Metacrafters

Austin, TX (Remote)

- Built decentralized applications on EVM chains, writing and testing Solidity smart contracts against Web3 tooling.
- Implemented NFT transfer contracts and decentralized storage flows for on-chain asset metadata.
- Developed a cross-chain NFT bridge across **2 networks**, Ethereum Sepolia and Polygon, coordinating deployment and transfer verification on both.

Frontend Developer Intern

Jun 2023 – Jul 2023

Diabotics India Pvt. Ltd.

Bareilly, Uttar Pradesh

- Translated UI/UX wireframes into responsive production layouts, improving front-end performance and cross-device usability across the site.

PROJECTS

ArDacity UI — decentralized component library on Arweave

ardacityui.arweave.net

React, TypeScript, Arweave, AO, Lua, Tailwind CSS

Top 30 — Arweave India Hackerhouse

- Published **40+ components, 10+ blocks, and 20+ AO blocks** hosted and served entirely on chain, with no conventional web host in the delivery path.
- Distributed components via a registry JSON so consumers install and render them without cloning the project.

UniHub — event platform with on-chain participation

uni-event-hub-frontend.vercel.app

Next.js, TypeScript, Solidity, Express, MongoDB, ethers.js, IPFS/Pinata

1st place — Hack with Tricity

- Built a full-stack platform for college event hosting, registration, and leaderboard tracking, with participation recorded on Ethereum.
- Automated event hosting and funding via smart contracts; issued winner certificates as NFTs pinned to IPFS.

Unify — always-on-top desktop music widget

unify-phi.vercel.app

Next.js, TypeScript, OAuth 2.0, Tailwind CSS

Peerlist ▲ 15

- Built one always-on-top widget controlling playback across **5 services** — Spotify, Apple Music, YouTube, YouTube Music, and SoundCloud — from a single surface.
- Implemented OAuth 2.0 against each provider, handling token refresh, per-service session state, and playlist migration.

EDUCATION

Bachelor of Computer Science — Chandigarh University

Aug 2026

CGPA 7.78

Puranchandra Vidyaniketan — Class XII 85.8%, Class X 92.5%

2019 – 2021

ACHIEVEMENTS & CERTIFICATIONS

- **1st place**, Hack with Tricity (Mar 2025).
- **Top 30 developers**, Arweave India Hackerhouse (Apr–May 2025).
- Finalist, Hack Mole 5.0 at NIT Jalandhar (Feb 2024).
- Top 10, Hack Octo 2.0 (Oct 2023).
- Second round, Smart India Hackathon (Sep 2023).
- Hashmine (Apr 2024) — built and deployed TokenVerse to mainnet.
- NPTEL certifications: Cloud Computing (IIT Kharagpur), Multi-core Computer Architecture (IIT Guwahati).

LEADERSHIP & COMMUNITY

- Mentor, Hashbite (Oct 2024) — guided 50+ students to 60+ ICP mainnet deployments.
- Led a Flutter peer-to-peer workshop at Chandigarh University (Feb 2024), directing a team of four.
- Admin, CU Lounge — a developer community of 400+ members.
